Consolidated statement of financial position	6
Consolidated statement of income	7
Consolidated statement of changes in equity	8
Consolidated statement of cash flows	9
Notes to the consolidated financial statements	10 - 72

## *Independent auditor's report to the shareholders of Qatar International Islamic Bank (Q.P.S.C.)*

---

### *REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS*

#### *Our opinion*

In our opinion, the consolidated financial statements of Qatar International Islamic Bank (Q.P.S.C.) ("QIIB" or the "Bank") and its subsidiaries (together the "Group") present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2019 and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with the Financial Accounting Standards (FAS) issued by the Accounting and Auditing Organization for Islamic Financial Institutions (AAOIFI) and the applicable provisions of Qatar Central Bank regulations ("QCB regulations").

#### **What we have audited**

The Group's consolidated financial statements comprise:

- the consolidated statement of financial position as at 31 December 2019;
- the consolidated statement of income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended; and
- the notes to the consolidated financial statements, which include a summary of significant accounting policies, and other explanatory information.

---

#### *Basis for opinion*

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### *Independence*

We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the ethical requirements that are relevant to our audit of the consolidated financial statements in the State of Qatar. We have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

---

#### *Our audit approach*

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the consolidated financial statements. In particular, we considered where management made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the consolidated financial statements as a whole, taking into account the structure of the Group, the accounting processes and controls, and the industries in which the Group operates.

## Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

### Key audit matter

### How our audit addressed the key audit matter

#### Impairment of financing facilities

Impairment allowances represent the directors' best estimate of the losses arising from credit risk and especially from financing facilities. As described in the summary of significant accounting policies to the financial statements, the impairment losses have been determined in accordance with FAS 30.

We focused on this area because the directors make complex and subjective judgements over both amount and timing of recognition of impairment, such as:

- Determining criteria for significant increase in credit risk.
- Choosing appropriate models and assumptions for the measurement of Expected Credit Losses (ECL) including Probability of default (PD), Loss Given Default (LGD), and Exposure at Default (EAD).
- Establishing the number and relative weighting of forward-looking scenarios for each type of product/ market and the associated ECL.
- Establishing groups of similar assets for the purpose of measuring the ECL.
- Determining disclosure requirements in accordance with the accounting standards.

The Group's financing facilities that are subject to credit risk, included financing assets amounting to QAR 39,501 million and off-balance sheet finance amounting to QAR 14,184 million as of 31 December 2019, which are considered very material to the bank's total assets.

Information on the credit risk and the Group's credit risk management is provided in note 5 of the financial statements.

Our audit procedures in relation to this key audit matter included the following:

- Obtained an understanding of the methodology used to identify and calculate individual impairment allowance for stage 3 exposures, and tested a sample of such exposures against the methodology.
- Assessed and tested the design and operating effectiveness of the relevant key controls around origination and approval of financing facilities, monitoring of credit exposures, and impairment calculation.
- Evaluated the appropriateness of the Group's impairment provisioning policy in accordance with the requirements of FAS 30.
- Used our own internal experts to independently review the reasonableness of the ECL methodology developed and applied by management. This included components such as model risk parameters (PD, LGD, and EAD), forward-looking information, associated weighting, and staging analysis.
- Obtained an understanding of and tested the completeness and accuracy of the historical and current datasets used for ECL calculation.
- Tested a sample of financial facilities to determine the appropriateness and application of staging criteria.
- Obtained samples of the latest available credit reviews and checked that they include appropriate assessment and documentation of borrower's ability to meet repayment obligations (principal, profit, and fees).
- Evaluated the adequacy of the financial statement disclosures to determine if they were in accordance with the requirements of FAS 30 and QCB regulations.

### *Other information*

The management is responsible for the other information. The other information comprises Board of Directors' Report (but does not include the consolidated financial statements and our auditor's report thereon), which we obtained prior to the date of this auditor's report, and the complete annual report, which is expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the complete annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

---

### *Responsibilities of management and those charged with governance for the consolidated financial statements*

The management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with FAS issued by the AAOIFI and QCB regulations, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so. Those charged with governance are responsible for overseeing the Group's financial reporting process.

---

### *Auditor's responsibilities for the audit of the consolidated financial statements*

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

*REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS*

We have obtained all the information and explanations, which we considered necessary for the purpose of our audit. The Group has maintained proper accounting records and its consolidated financial statements are in agreement therewith. We confirm that we were not aware of any contraventions by the Bank of its Articles of Associations, the applicable provisions of Qatar Central Bank Law No.13 of 2012 and of the Qatar Commercial Companies' Law No.11 of 2015, during the financial year that would materially affect its activities or its financial position as at and for the year ended 31 December 2019.

# Qatar International Islamic Bank (Q.P.S.C)

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENT

For the year ended 31 December 2019

### 1 LEGAL STATUS AND PRINCIPAL ACTIVITIES

Qatar International Islamic Bank (Q.P.S.C) (“QIIB” or “the Bank”) was incorporated under Amiri Decree No. 52 of 1990. The Bank operates through its head office located in Grand Hamad Street in Doha and 19 local branches. The Bank is listed, and its shares are traded on the Qatar Exchange.

The commercial registration number of the Bank is 13023. The address of the Bank’s registered office is Doha, State of Qatar, P.O. Box 664. The consolidated financial statements of the Bank for the year ended 31 December 2019 comprise the Bank and its following special purpose entities (together “the Group”):

	Country of incorporation	Capital QR’000	Principal Business Activities	Effective percentage of ownership	
				2019	2018
QIIB Senior Sukuk Ltd	Cayman Islands	-	Sukuk issuance	-	-
QIIB Tier 1 Sukuk Ltd	Cayman Islands	-	Sukuk issuance	-	-

Note:

- (i) QIIB Senior Sukuk Ltd and QIIB Tier 1 Sukuk Ltd, were incorporated in the Cayman Islands as an exempted company with limited liability for sole purpose of Sukuk and Tier 1 Sukuk issuance, respectively, for the benefit of QIIB.

The Bank is engaged in banking, financing and investing activities in accordance with its Articles of Incorporation, Islamic Shari’a Rules and Principles as determined by the Shari’a Supervisory Board of the Group and regulations of Qatar Central Bank (QCB).

The consolidated financial statements of the Group for the year ended 31 December 2019 were authorised for issue in accordance with a resolution of the Board of Directors on 28 January 2020.

### 2 BASIS OF PREPARATION

#### (a) Statement of compliance

The consolidated financial statements have been prepared in accordance with the Financial Accounting Standards (“FAS”) issued by the Accounting and Auditing Organization for Islamic Financial Institutions (“AAOIFI”), and the applicable provisions of Qatar Central Bank (“QCB”) regulations. In line with the requirements of AAOIFI, for matters that are not covered by FAS, the Group uses guidance from the relevant International Financial Reporting Standards (“IFRSs”) as issued by the International Accounting Standards Board (“IASB”).

The Group’s management has made an assessment of the Group’s ability to continue as a going concern and is satisfied that the Group has the resources to continue in business for the foreseeable future. Furthermore, the management is not aware of any material uncertainties that may cast significant doubt upon the Group’s ability to continue as a going concern. Therefore, the consolidated financial statements continue to be prepared on the going concern basis.

#### (b) Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis except for the investment securities classified as Investments at fair value through equity and Investments at fair value through statement of income.

#### (c) Functional and presentation currency

These consolidated financial statements are presented in Qatari Riyals (“QR”), which is the Bank’s functional and presentational currency. Except as otherwise indicated, financial information presented in QR has been rounded to the nearest thousands.

#### (d) Use of estimates and judgments

The preparation of the consolidated financial statements in conformity with FAS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

## **2 BASIS OF PREPARATION (CONTINUED)**

### **(d) Use of estimates and judgments (continued)**

Information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements are described in note 6.

## **3 SIGNIFICANT ACCOUNTING POLICIES**

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements, and have been applied consistently by the Group except for the effects of standards mentioned in note 3 (ae).

### **(a) Basis of consolidation**

#### *(i) Special purpose entities*

Special purpose entities (“SPEs”) are entities that are created to accomplish a narrow and well-defined objective such as the securitization of particular assets, or the execution of a specific financing transaction. An SPE is consolidated if, based on an evaluation of the substance of its relationship with the Group and the SPE’s risks and rewards, the Group management concludes that it controls the SPE. The following circumstances may indicate a relationship in which, in substance, the Group controls and consequently consolidates an SPE:

- the activities of the SPE are being conducted on behalf of the Group according to its specific business needs so that the Group obtains benefits from the SPE’s operation;
- the Group has the decision-making powers to obtain the majority of the benefits of the activities of the SPE or, by setting up an ‘autopilot’ mechanism, the Group has delegated these decision-making powers;
- the Group has rights to obtain the majority of the benefits of the SPE and therefore may be exposed to risks incident to the activities of the SPE;
- the Group retains the majority of the residual or ownership risks related to the SPE or its assets in order to obtain benefits from its activities.

The assessment of whether the Group has control over an SPE is carried out at inception and normally no further reassessment of control is carried out in the absence of changes in the structure or terms of the SPE, or additional transactions between the Group and the SPE. Day-to-day changes in market conditions normally do not lead to a reassessment of control. However, sometimes changes in market conditions may alter the substance of the relationship between the Group and the SPE and in such instances the Group determines whether the change warrants a reassessment of control based on the specific facts and circumstances. Where the Group’s voluntary actions, such as financing amounts in excess of existing liquidity facilities or extending terms beyond those established originally, change the relationship between the Group and an SPE, the Group performs a reassessment of control over the SPE.

### **(b) Investment in associates**

Associates are entities over which the Group has significant influence. Significant influence is the power to participate in the financial and operating decisions of the investee, but not to control or joint control over those polices.

The considerations made in determining significant influence or joint control are similar to those necessary to determine control over subsidiaries.

Investments in associates are accounted for by the equity method of accounting and are initially recognized at cost (including transaction costs directly related to acquisition of investment in associate). The Group’s investment in associates includes goodwill (net of any accumulated impairment loss) identified on acquisition.

The Group’s share of its associates’ post-acquisition profits or losses is recognized in the consolidated statement of income; its share of post-acquisition movements in reserve is recognized in equity. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group’s share of losses in an associate equal or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred obligations or made payments on behalf of the associate.

**3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**(b) Investment in associates (continued)**

The Group determines at each reporting date whether there is any objective evidence that the investment in associate is impaired. If this is the case the Group calculates the amount of impairment as being the difference between the fair value of the associate and the carrying value and recognizes the amount in the consolidated statement of income.

Intergroup gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Intragroup losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. For preparation of these consolidated financial statements, equal accounting policies for similar transactions and other events in similar circumstances are used. Dilution gains and losses in associates are recognized in the consolidated statement of income.

The Group's share of the results of associates is based on financial statements available up to a date not earlier than three months before the date of the consolidated statement of financial position, adjusted to conform to the accounting policies of the Group.

The accounting policies of associates have been changed where necessary to ensure consistency with policies adopted by the Group.

Upon loss of significant influence over the associate, the Group measures and recognizes any retaining investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retaining investment and proceeds from disposal is recognized in the consolidated statement of income.

**(c) Foreign currency**

**Foreign currency transactions and balances**

Foreign currency transactions are denominated, or that require settlement in a foreign currency are translated into the respective functional currencies of the operations at the spot exchange rates at the transaction dates.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated into the functional currency at the spot exchange rate at that date. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated into the functional currency at the spot exchange rate at the date that the fair value was determined. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

Foreign currency differences resulting from the settlement of foreign currency transactions and arising on translation at period end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the consolidated statement of income.

Investments in associate companies are translated into Qatari Riyals at the rates ruling at the reporting date. The income or loss is translated at the average exchange rates for the year. Exchange differences arising on translation are taken directly to the foreign exchange loss on translation within the consolidated statement of income.

**(d) Investment securities**

Investment securities comprise investments in debt-type and equity-type financial instruments.

*(i) Classification*

Debt-type instruments are investments that have terms that provide fixed or determinable payments of profits and capital. Equity-type instruments are investments that do not exhibit features of debt-type instruments and include instruments that evidence a residual interest in the assets of an entity after deducting all its liabilities.

*Debt-type instruments*

Investments in debt-type instruments are classified into the following categories: 1) at amortized cost or 2) at fair value through statement of income.

**3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**(d) Investment securities (continued)**

A debt-type investment is classified and measured at amortized cost only if the instrument is managed on a contractual yield basis or the instrument is not held for trading and has not been designated at fair value through the income statement.

Debt-type investments classified and measured at fair value through income statement include investments held for trading or designated at fair value through income statement. At inception, a debt-type investment managed on a contractual yield basis can only be designated at fair value through income statement if it eliminates an accounting mismatch that would otherwise arise on measuring the assets or liabilities or recognizing the gains or losses on them on different bases.

*Equity-type instruments*

Investments in equity type instruments are classified into the following categories: 1) at fair value through income statement or 2) at fair value through equity.

Equity-type investments classified and measured at fair value through income statement include investments held for trading or designated at fair value through income statement.

An investment is classified as held for trading if acquired or originated principally for the purpose of generating a profit from short-term fluctuations in price or dealer's margin. Any investments that form part of a portfolio where there is an actual pattern of short-term profit taking are also classified as 'held for trading'.

Equity-type investments designated at fair value through income statement include investments which are managed and evaluated internally for performance on a fair value basis.

On initial recognition, the Group makes an irrevocable election to designate certain equity instruments that are not designated at fair value through income statement to be classified as investments at fair value through equity.

*(ii) Recognition and derecognition*

Investment securities are recognized at the trade date i.e. the date that the Group contracts to purchase or sell the asset, at which date the Group becomes party to the contractual provisions of the instrument. Investment securities are derecognized when the rights to receive cash flows from the financial assets have expired or where the Group has transferred substantially all risk and rewards of ownership.

*(iii) Measurement*

*Initial recognition*

Investment securities are initially recognized at fair value plus transaction costs, except for transaction costs incurred to acquire investments at fair value through income statement which are charged to consolidated statement of income.

*Subsequent measurement*

Investments at fair value through income statement are re-measured at fair value at the end of each reporting period and the resultant re-measurement gains or losses is recognized in the consolidated statement of income in the period in which they arise. Subsequent to initial recognition, investments classified at amortized cost are measured at amortized cost using the effective profit method less any impairment allowance. All gains or losses arising from the amortization process and those arising on de-recognition or impairment of the investments, are recognized in the consolidated statement of income.

Investments at fair value through equity are re-measured at their fair values at the end of each reporting period and the resultant gain or loss, arising from a change in the fair value of investments are recognized in the consolidated statement of changes in shareholders' equity and presented in a separate fair value reserve within equity. When the investments classified as fair value through equity are sold, impaired, collected or otherwise disposed of, the cumulative gain or loss previously recognized in the consolidated statement of changes in equity is transferred to the consolidated statement of income.

Investments which do not have a quoted market price or other appropriate methods from which to derive a reliable measure of fair value when on a continuous basis cannot be determined, are stated at cost less impairment allowance, (if any).

**3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**(d) Investment securities (continued)**

*(iv) Measurement principles*

*Amortized cost measurement*

The amortized cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus capital repayments, plus or minus the cumulative amortization using the effective profit method of any difference between the initial amount recognized and the maturity amount, minus any reduction for impairment. The calculation of the effective profit rate includes all fees and points paid or received that are an integral part of the effective profit rate.

*Fair value measurement*

Fair value is the amount for which an asset could be exchanged or an obligation settled between well informed and willing parties (seller and buyer) in an arm's length transaction. The Group measures the fair value of quoted investments using the market bid price for that instrument at the close of business on the consolidated statement of financial position date. For investment where there is no quoted market price, a reasonable estimate of the fair value is determined by reference to the current market value of another instrument, which is substantially the same or is based on the assessment of future cash flows. The cash equivalent values are determined by the Group by discounting future cash flows at current profit rates for contracts with similar term and risk characteristics.

**(e) Financing assets**

Financing assets comprise Shari'a compliant financing provided by the Group with fixed or determinable payments. These include financing provided through Murabaha, Mudaraba, Musharaka, Musawama, Ijarah Muntahia Bittamleek, Istisn'a and other modes of Islamic financing. Financing assets are stated at their amortized cost less impairment allowances (if any).

*Murabaha and Musawama*

Murabaha and Musawama receivables are sales on deferred terms. The Group arranges a Murabaha and Musawama transaction by buying a commodity (which represents the object of the Murabaha) and selling it to the Murabaha (a beneficiary) at a margin of profit over cost. The sales price (cost plus the profit margin) is repaid in installments by the Murabaha over the agreed period. Murabaha and Musawama receivables are stated net of deferred profits and impairment allowance (if any).

Based on QCB regulations, the Group applies the rule of binding the purchase ordered to its promise in the Murabaha sale, and not enters into any Murabaha transaction in which the purchase ordered does not undertake to accept the goods if they meet the specifications.

*Mudaraba and Musharaka*

Mudaraba and Musharaka financing are partnerships in which the Group contributes the capital in Mudaraba, and capital and work in Musharaka. These contracts are stated at fair value of consideration given less impairment allowance (if any).

*Ijarah Muntahia Bittamleek*

Ijarah Muntahia Bittamleek receivables arise from financing structures when the purchase and immediate lease of an asset are at cost plus an agreed profit (in total forming fair value). The amount is settled on a deferred payment basis. Ijarah Muntahia Bittamleek receivables are carried at the aggregate of the minimum lease payments, less deferred income (in total forming amortised cost) and impairment allowance (if any).

*Istisn'a*

Istisn'a is a sales contract in which the Group acts as 'al-sani' (a seller) with an 'al-mustasni' (a purchaser) and undertakes to manufacture or otherwise acquire a product based on the specification received from the purchaser, for an agreed upon price.

*Wakala*

Wakala contracts represent agency agreements between two parties. One party, the provider of funds (Muwakkil) appoints the other party as an agent (Wakeel) with respect to the investment of the Muwakkil funds in a Shari'a compliant transaction. The Wakeel uses the funds based on the nature of the contract and offer an anticipated return to the Muwakkil. Wakala contracts are stated at amortized cost.

**3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**(f) Other financial assets and liabilities**

*(i) Recognition and initial measurement*

The Group initially recognizes due from banks, financing assets, customers' current accounts, due to banks and financial institutions, Sukuk financing and certain other assets and other liabilities on the date at which they are originated. All other financial assets and liabilities are initially recognized on the settlement date at which the Group becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is measured initially at fair value plus, for an item not at fair value through income statement, transaction costs that are directly attributable to its acquisition or issue.

After initial measurement, other financial assets and liabilities are subsequently measured at amortized cost using the effective profit rate method net of any amounts written off and provision for impairment.

*(ii) De-recognition of financial assets and financial liabilities*

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or when it transfers the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all the risks and rewards of ownership and it does not retain control of the financial asset.

Any interest in transferred financial assets that qualify for derecognition that is created or retained by the Group is recognized as a separate asset or liability in the consolidated statement of financial position. On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset transferred), and consideration received (including any new asset obtained less any new liability assumed) is recognized in consolidated statement of income.

The Group enters into transactions whereby it transfers assets recognized on its consolidated statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets or a portion of them. If all or substantially all risks and rewards are retained, then the transferred assets are not derecognized.

In transactions in which the Group neither retains nor transfers substantially all the risks and rewards of ownership of a financial asset and it retains control over the asset, the Group continues to recognize the asset to the extent of its continuing involvement, determined by the extent to which it is exposed to changes in the value of the transferred asset.

In certain transactions the Group retains the obligation to service the transferred financial asset for a fee. The transferred asset is derecognized if it meets the derecognition criteria. An asset or liability is recognized for the servicing contract, depending on whether the servicing fee is more than adequate (asset) or is less than adequate (liability) for performing the servicing.

The Group enters into transactions where it retains the contractual rights to receive cash flows from assets but assumes a contractual obligation to pay those cash flows to other entities and transfers substantially all of the risks and rewards. These transactions are accounted for as 'pass through' transfers that result in derecognition if the Group:

- Has no obligation to make payments unless it collects equivalent amounts from the assets;
- Is prohibited from selling or pledging the assets; and
- Has an obligation to remit any cash it collects from the assets without material delay.

Collateral (shares and bonds) furnished by the Group under standard repurchase agreements and securities lending and borrowing transactions are not derecognized because the Group retains substantially all the risks and rewards on the basis of the predetermined repurchase price, and the criteria for derecognition are therefore not met. This also applies to certain securitization transactions in which the Group retains a subordinated residual interest.

The Group derecognizes a financial liability when they are extinguished (i.e. when the obligation specified in the contract is discharged or cancelled or expires).

**3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**(f) Other financial assets and liabilities (continued)**

The exchange between the Group and its original lenders of debt instruments with substantially different terms, as well as substantial modifications of the terms of existing financial liabilities, are accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective profit rate, is at least 10% different from the discounted present value of the remaining cash flows of the original financial liability. In addition, other qualitative factors, such as the currency that the instrument is denominated in, changes in the type of profit rate, new conversion features attached to the instrument and change in covenants are also taken into consideration. If an exchange of debt instruments or modification of terms is accounted for as an extinguishment, any costs or fees incurred are recognized as part of the gain or loss on the extinguishment. If the exchange or modification is not accounted for as an extinguishment, any costs or fees incurred adjust the carrying amount of the liability and are amortized over the remaining term of the modified liability.

*(iii) Offsetting*

Financial assets and liabilities are offset only when there is a legal or religious enforceable right to set off the recognized amounts and the Group intends to either settle on a net basis, or to realize the asset and settle the liability simultaneously.

**(g) Impairment of financial assets (other than equity type investments classified as fair value through equity)**

The Group recognises loss allowances for expected credit loss (ECL) on the following financial instruments that are not measured at fair value through statement of income:

- Financial assets that are debt instruments;
- Financial guarantee contracts issued; and
- Financing commitments issued.

The Group measures loss allowances at an amount equal to lifetime ECL, except for the following, for which they are measured as 12-month ECL:

- debt investment securities that are determined to have low credit risk at the reporting date; and
- other financial instruments on which credit risk has not increased significantly since their initial recognition.

12-month ECL are the portion of ECL that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

**Measurement of ECL**

ECL are a probability-weighted estimate of credit losses. They are measured as follows:

- Financial assets that are not credit-impaired at the reporting date: as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive);
- Financial assets that are credit-impaired at the reporting date: as the difference between the gross carrying amount and the present value of estimated future cash flows;
- Undrawn financing commitments: as the present value of the difference between the contractual cash flows that are due to the Group if the commitment is drawn down and the cash flows that the Group expects to receive; and
- Financial guarantee contracts: the expected payments to reimburse the holder less any amounts that the Group expects to recover.

**Restructured financial assets**

If the terms of a financial asset are renegotiated or modified or an existing financial asset is replaced with a new one due to financial difficulties of the borrower, then an assessment is made of whether the financial asset should be derecognized and ECL are measured as follows:

- If the expected restructuring will not result in derecognition of existing asset, then the expected cash flows arising from the modified financial asset are included in calculating the cash shortfalls from existing asset;

**3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**(g) Impairment of financial assets (other than equity type investments classified as fair value through equity)**

- If the expected restructuring will result in derecognition of the existing asset, then the expected fair value of the new asset is treated as the final cash flow from the existing financial asset at the time of its derecognition. This amount is included in calculating the cash shortfalls from the existing financial asset that are discounted from the expected date of derecognition to the reporting date using the original effective profit rate of the existing financial asset.

**Credit-impaired financial assets**

At each reporting date, the Group assesses whether financial assets carried at amortised cost are credit impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- Significant financial difficulty of the borrower or issuer;
- A breach of contract such as a default or past due event;
- The restructuring of a financing asset by the Group on terms that the Group would not consider otherwise;
- It is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- The disappearance of an active market for a security because of financial difficulties.

**(h) Financial assets and liabilities**

**Financial Assets**

If the terms of a financial asset are modified, the Group evaluates whether the cash flows of the modified asset are substantially different. If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognised and a new financial asset is recognised at fair value, and recalculates a new effective profit rate for the asset. The date of renegotiation is consequently considered to be the date of initial recognition for impairment calculation purpose, including for the purpose of determining whether a significant increase in credit risk has occurred.

If the cash flows of the modified asset carried at amortised cost are not substantially different, then the modification does not result in derecognition of the financial asset. In this case, the Group recalculates the gross carrying amount of the financial asset based on the revised cash flows of the financial assets and recognises the amount arising from adjusting the gross carrying amount as a modification gain or loss in the consolidated income statement. If such a modification is carried out because of financial difficulties of the borrower, then the gain or loss is presented together with impairment losses. In other cases, it is presented as net income from financing activities.

**Financial Liabilities**

The Group derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in the consolidated statement of income

**(i) Cash and cash equivalents**

Cash and cash equivalents include notes and coins on hand, balances held with Qatar Central Bank and highly liquid financial assets with maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value, and are used by the Group in the management of its short-term commitments.

Cash and cash equivalents are carried at amortised cost in the consolidated statement of financial position.

**(j) Investment property**

Investment property held for rental or capital appreciation is measured at cost including cash equivalent amount paid or fair value of other consideration given to acquire an asset at the time of its acquisition or construction. Depreciation is systematically allocated for the cost of the investment property over its useful life. Investment property is measured at cost less accumulated depreciation and impairment losses.

**3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**(j) Investment property (continued)**

Major expenditure incurred by the entity related to additions and improvement subsequent to its acquisition will be added to the carrying amount of investment property in the consolidated statement of financial position, provided that the Bank expects that such expenditure will increase the future economic benefits to the Bank from the investment property. However, if such economic benefits are not expected to take place, the entity will recognize this expenditure in the consolidated statement of income in the financial period in which it is incurred, taking into consideration the split between the portion related to owners' equity and the portion related to investment account holders.

Depreciation for investments properties is recognized in consolidated statement of income on a straight-line basis over the estimated useful lives of each part of an item of investment property since this closely reflects the expected pattern of consumption of the future economic benefits embodied in the property and is based on cost of the property less its estimated residual value. Land and work-in-progress are not depreciated.

The estimated useful lives for the current and comparative years are as follows:

	<b>Years</b>
Buildings	20

Useful lives and residual values are reassessed at each reporting date and adjusted prospectively, if appropriate.

Repairs and maintenance expenses are charged to the statement of income when incurred.

Investment property is derecognized on disposal or when the property is permanently withdrawn from use and no future economic benefits are expected from its disposal. Gain or losses arising from the retirement will be determined as the difference between the net disposal proceeds and the carrying amount of the asset, and will be recognized in consolidated statement of income in the period of the retirement or disposal, taking into consideration the split between the portion related owner's equity and the portion related to investment account holders.

**(k) Fixed assets**

*(i) Recognition and measurement*

Items of fixed assets are measured at cost less accumulated depreciation and impairment losses.

Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the assets and restoring the site on which they are located and capitalized borrowing costs.

When parts of an item of fixed asset have different useful lives, they are accounted for as separate items (major components) of fixed assets.

The gain or loss on disposal of an item of fixed asset is determined by comparing the proceeds from disposal with the carrying amount of the item of fixed assets and is recognized in other income/other expenses in the consolidated statement of income.

*(ii) Subsequent costs*

The cost of replacing a component of fixed asset is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing of fixed assets are recognized in consolidated statement of income as incurred.

Depreciation is recognized in consolidated income statement on a straight-line basis over the estimated useful lives of each part of an item of fixed assets since this closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset and is based on cost of the asset less its estimated residual value. Land and work-in-progress are not depreciated.

# Qatar International Islamic Bank (Q.P.S.C)

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENT

For the year ended 31 December 2019

### 3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (k) Fixed assets (continued)

The estimated useful lives for the current and comparative years are as follows:

	Years
Buildings	20
IT equipment	3-5
Fixtures and fittings	5-7
Motor vehicles	5

Useful lives and residual values are reassessed at each reporting date and adjusted prospectively, if appropriate.

Repairs and maintenance expenses are charged to the statement of income when incurred.

#### (l) Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in the consolidated statement of income in the year in which the expenditure is incurred.

The useful lives of intangible assets are assessed to be either finite or indefinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life is reviewed at each financial year. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the consolidated statement of income in the expense category consistent with the nature of the intangible asset.

Intangible assets with indefinite useful lives are not amortized but are tested for impairment annually either individually or at the cash generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life assessment continues to be supportable. If not, the change in the useful life from indefinite to finite is made on a prospective basis.

A summary of the useful lives and amortization methods of Group's intangible assets are as follows:

Useful lives	Software Finite (5 years)
Amortization method used	Amortized on a straight line basis over the periods of availability
Internally generated or acquired	Acquired

#### (m) Impairment of non-financial assets

The carrying amounts of the Group's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill and intangible assets that have indefinite useful lives or that are not yet available for use, the recoverable amount is estimated each year at the same time. An impairment loss is recognized if the carrying amount of an asset or its Cash Generating Unit ("CGU") exceeds its estimated recoverable amount.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGU. Subject to an operating segment ceiling test, for the purposes of goodwill impairment testing, CGUs to which goodwill has been allocated are aggregated so that the level at which impairment testing is performed reflects the

**3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**(m) Impairment of non-financial assets (continued)**

lowest level at which goodwill is monitored for internal reporting purposes. Goodwill acquired in a business combination is allocated to groups of CGUs that are expected to benefit from the synergies of the combination.

The Group's corporate assets do not generate separate cash inflows and are utilized by more than one CGU. Corporate assets are allocated to CGUs on a reasonable and consistent basis and tested for impairment as part of the testing of the CGU to which the corporate asset is allocated.

Impairment losses are recognized in consolidated statement of income. Impairment losses recognized in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the CGU (group of CGUs) and then to reduce the carrying amount of the other assets in the CGU (group of CGUs) on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

**(n) Customer current accounts**

Balances in current accounts are recognized when received by the Group. The transactions are measured as the amount received by the Bank at the time of contracting. At the end of the reporting period, these accounts are measured at amortized cost.

**(o) Equity of unrestricted investment account holders**

Equity of unrestricted investment account holders are funds held by the Group, which it can invest at its own discretion. The investment account holders authorize the Group to invest the account holders' funds in a manner which the Group deems appropriate without laying down any restrictions as to where, how and for what purpose the funds should be invested.

The Group charges a management fee (Mudarib fees) to investment account holders of the total income from investment accounts, the income attributable to account holders is allocated to investment accounts after setting aside provisions and deducting the Group's share of income as a Mudarib. The allocation of income is determined by the management of the Group within the allowed profit sharing limits as per the terms and conditions of the investment accounts.

**(p) Distribution of profit between equity of unrestricted investment account holders and shareholders**

The Group complies with the directives of the QCB as follows:

- Net profit is arrived at after taking into account all income and expenses at the end of the financial year, and is distributed between unrestricted investment account holders and shareholders.
- The share of profit of unrestricted investment account holders is calculated on the basis of their daily deposit balances over the year, after reducing the Group's agreed and declared Mudaraba fee.
- In case of any expense or loss, which arises out of negligence on the part of the Group due to non-compliance with QCB regulations and instructions, then such expenses or loss, shall not be borne by the unrestricted investment account holders. Such matter is subject to the QCB decision.
- In case the results of the Group at the year end are net losses, then QCB, being the authority responsible for determining the Bank's accountability for these losses, shall decide how these shall be treated without violation to the Islamic Shari'a rules.
- Due to pooling of unrestricted investment funds with the Group's funds for the purpose of investment, no priority has been given to either party in the appropriation of profit.

**3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**(q) Sukuk eligible as additional capital**

Sukuks issued by the Group which are perpetual, unsecured, subordinated to ordinary equity shares and the payment of profit for such sukuk is non-cumulative, and are made at the discretion of Group are initially recognized as equity. The Group has the right not to pay profit on these sukuk, and the sukuk holders will have no claim with respect to non-payment. The sukuk does not have a fixed maturity date.

The Group incurs various costs in issuing its own instruments which are accounted as equity as mentioned in the above paragraph. Those costs might include registration and other regulatory fees, amounts paid to legal, accounting and other professional advisers, printing costs and stamp duties. The transaction costs of an equity transaction are accounted for as a deduction from equity to the extent they are incremental costs directly attributable to the equity transaction that otherwise would have been avoided. The costs of an equity transaction that is abandoned are recognised as an expense.

Profit distributions on perpetual sukuk are recognized as a deduction in equity after declaration due to their profit's non-cumulative feature.

**(r) Provisions**

Provision is recognized if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

**(s) Employee benefits**

*(i) Defined contribution plans*

The Group provides for its contribution to the state administered retirement fund for Qatari employees in accordance with the retirement law, and the resulting charge is included within the staff costs in the consolidated statement of income. The Group has no further payment obligations once the contributions have been paid. The contributions are recognized when they are due.

*(ii) Employees' end of service benefits*

The Group provides a provision for all end of service benefits payable to employees in accordance with the Group's policies, calculated on the basis of individual employee's salary and period of service at the reporting date.

**(t) Share capital and reserves**

*(i) Share issue costs*

Incremental costs directly attributable to the issue of an equity instrument are deducted from the initial measurement of the equity instrument.

*(ii) Dividends on ordinary shares*

Dividends on ordinary shares are recognized in equity in the period in which they are approved by the shareholders of the Bank.

**(u) Revenue recognition**

*Murabaha and Musawama*

Profit from Murabaha and Musawama transactions is recognized when the income is both contractually determinable and quantifiable at the commencement of the transaction. Such income is recognized on a time-apportioned basis over the period of the transaction. Where the income from a contract is not contractually determinable or quantifiable, it is recognized when the realization is reasonably certain or when actually realized. Income related to non-performing accounts is excluded from the consolidated statement of income.

*Mudaraba*

Income on Mudaraba financing is recognized when the right to receive payment is established or on distribution by the Mudarib, whereas losses are charged to the consolidated statement of income on declaration by the Mudarib.

**3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**(u) Revenue recognition (continued)**

In case Mudaraba capital is lost or damaged prior to the inception of work without misconduct or negligence on the part of Mudarib, then such losses are deducted from Mudaraba capital and are treated as loss to the Group. In case of termination or liquidation, unpaid portion by Mudarib is recognized as receivable due from Mudarib.

*Musharaka*

Income on Musharaka financing is recognized when the right to receive payments is established or on distribution.

*Ijara Muntahia Bittamleek*

Ijara income is recognized on time-apportioned basis over the lease period. Income related to non-performing accounts is excluded from the consolidated statement of income.

*Wakala*

Income from Wakala placements is recognized on a time apportioned basis so as to yield a constant periodic rate of return based on the balance outstanding.

*Istisn'a*

Revenue and the associated profit margin are recognized in the Group's consolidated statement of income according to the percentage of completion method by taking in account the difference between total revenue (cash price to purchaser) and Group's estimated cost. The Group's recognizes anticipated losses on Istisna'a contract as soon as they are anticipated.

*Income from investment banking services*

Income from investment banking services (presented in fee and commission income), including placement, advisory, marketing and performance fees, is recognized as per contractual terms when the service is provided, and income is earned. This is usually when the Group has performed all significant acts in relation to a transaction and it is highly probable that the economic benefits from the transaction will flow to the Group. Significant acts in relation to a transaction are determined based on the terms agreed in the contracts for each transaction. The assessment of whether economic benefits from a transaction will flow to the Group is based on the extent of binding firm commitments received from other parties.

*Fees and commission income*

Fees and commission income that are integral to the effective profit rate on a financial asset carried at amortized cost are included in the measurement of the effective profit rate of the financial asset. Other fees and commission income, including account servicing fees, sales commission, management, arrangement and syndication fees, are recognized as the related services are performed.

*Dividend income*

Dividend income is recognized when the right to receive the dividend is established.

**(v) Earnings per share**

The Bank presents basic and diluted earnings per share ("EPS") data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to the shareholders of the Bank by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to owners and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares.

**(w) Segment reporting**

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components, whose operating results are reviewed regularly by the Chief Executive Officer (being the chief operating decision maker) of the Bank to make decisions about resources allocated to each segment and assess its performance, and for which discrete financial information is available.

**(x) Earnings prohibited by Shari'a**

The Group is committed to avoid recognizing any income generated from non- Sharia' compliance sources. Accordingly, all non-Shari'a compliance income is credited to a charity account where the Group uses these funds for charitable purposes as defined by the Sharia Supervisory Board.

**3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**(y) Wakala payables**

The Group accepts deposits from customers under wakala arrangement under which return payable to customers is agreed in the wakala agreement. There is no restriction on the Group for the use of funds received under wakala agreements. Wakala payables are carried at cost plus accrued profit.

**(z) Financial guarantees contracts and financing commitments**

In the ordinary course of business, the Group gives financial guarantees, consisting of letters of credit, guarantees and acceptances.

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due, in accordance with the terms of a debt instrument. Such financial guarantees are given to banks, financial institutions and others on behalf of customers to secure financing, overdrafts and other banking facilities.

Financial guarantees are initially recognized in the consolidated financial statements at fair value, being the premium received on the date the guarantee was given, and the initial fair value is amortized over the life of the financial guarantee. Subsequent to initial recognition, the Group's liability under such guarantees are measured at the higher of:

- The amount of the loss allowance (calculated as described in note 5 (bii)); and
- The premium received on initial recognition less income recognized.

These estimates are determined based on experience of similar transactions and history of past losses, supplemented by the judgment of Management.

Any increase in the liability relating to guarantees is taken to the consolidated statement of income. The amortization of the premium received is recognized in the consolidated statement of income under "commission and fees income".

Financing commitments provided by the Group are measured as the amount of the loss allowance (calculated as described in note 5 (bii)). The Group has not provided any commitment to provide financing at a below-market profit rate, or that can be settled net in cash or by delivering or issuing another financial instrument.

For financing commitments and financial guarantee contracts, the loss allowance is recognized as a provision. However, for contracts that include both a financing and an undrawn commitment and the Group cannot separately identify the expected credit losses on the undrawn commitment component from those on the financing component, the expected credit losses on the undrawn commitment are recognized together with the loss allowance for the financing. To the extent that the combined expected credit losses exceed the gross carrying amount of the financing, the expected credit losses are recognized as a provision.

**(aa) Contingent liabilities**

Contingent liabilities include guarantees, letter of credit, the Group's obligations with respect to unilateral promise to buy/sell currencies and others. Contingent liabilities are not recognized in the consolidated statement of financial position but are disclosed in the notes to the consolidated financial statements, unless they are remote.

**(ab) Comparatives**

Except when a standard or an interpretation permits or requires otherwise, all amounts are reported or disclosed with comparative information.

**3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**(ac) New standards, amendments and interpretations**

*(i) New standards, amendments and interpretations effective from 1 January 2019*

*FAS 28 Murabaha and Other Deferred Payment Sales*

AAOIFI has issued FAS 28 Murabaha and Other Deferred Payment Sales in 2017. FAS 28 supersedes the earlier FAS No. 2 "Murabaha and Murabaha to the Purchase Orderer" and FAS No. 20 "Deferred Payment Sale". The objective of this standard is to prescribe the appropriate accounting and reporting principles for recognition, measurement and disclosures in relation to Murabaha and other deferred payment sales transactions for the sellers and buyers, for such transactions. This standard shall be effective for the financial periods beginning on or after 1 January 2019 with early adoption permitted.

The Group has applied the standard from its mandatory adoption date, and the impact is immaterial on the financial information of the Group.

*FAS 30 Impairment, Credit losses and onerous commitments*

AAOIFI has issued FAS 30 Impairment, Credit losses and onerous commitments (FAS 30) in 2017. The objective of this standard is to establish the principles of accounting and financial reporting for the impairment and credit losses on various Islamic financing, investment and certain other assets of Islamic financial institutions (the institutions), and provisions against onerous commitments enabling in particular the users of financial statements to fairly assess the amounts, timing and uncertainties with regard to the future cash flows associated with such assets and transactions.

QCB earlier issued ECL regulations ("ECL regulations") via its circular 9 of 2017 as applicable for Islamic banks operating in Qatar. The Group had adopted the ECL regulations, which are similar to FAS 30, with effect from 1 January 2018 and as permitted by those ECL regulations, the Group elected not to restate comparative figures. Adjustments to the carrying amounts of financial assets and liabilities at the date of transition were recognised in the opening retained earnings and non-controlling interests of the current period.

Subsequently, QCB issued circular 26 of 2018 for Islamic banks operating in Qatar with respect to early adoption of FAS 30 effective 1 January 2018 and superseding its earlier circular 9 of 2017. Therefore, the Group has early adopted FAS 30 with effect from 1 January 2018. However, the Group did not identify any adjustments while adopting FAS 30 and overriding the ECL regulations. The requirements for restatement of comparative figures and adjustments to transition remains the same as ECL regulations.

*(ii) New standards, amendments and interpretations issued but not effective from 1 January 2019*

*FAS 31 Investment Agency (Al-Wakala Bi Al-Istithmar)*

AAOIFI has issued FAS 31 Investment Agency (Al-Wakala Bi Al-Istithmar) in 2018. The objective of this standard is to establish the principles of accounting and financial reporting for the investment agency (Al-Wakala Bi Al-Istithmar) instruments and the related assets and obligations from both the principal (investor) and the agent perspectives. This standard shall be effective for the financial periods beginning on or after 1 January 2020 with early adoption permitted.

The standard is not expected to have a material impact on the on the consolidated financial statements.

*FAS 32 Ijara*

AAOIFI has issued FAS 32 Ijara in 2020. The objective of this standard is to establish the set out principles for the classification, recognition, measurement, presentation and disclosures of Ijarah transactions including their different forms entered into by the Islamic financial institutions in the capacity of both the lessor and lessee. This standard brings a fundamental shift in the accounting approach for Ijarah transactions, particularly, in the hand of the lessee in contrast to the earlier approach of the off-balance sheet accounting for Ijarah. The standard will be effective from the financial periods beginning on or after 1 January 2021 with earlier adoption being permitted.

The Group is currently evaluating the impact of this standard.

### **3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

The standard was effective from financial periods beginning on or after 1 January 2020 with early adoption permitted.

#### *FAS 33 Investment in Sukuk, shares and similar instruments*

AAOIFI has issued FAS 33 Investment in Sukuk, shares and similar instruments in 2019. FAS 33 supersedes the earlier FAS 25 "Investment in Sukuks, shares and similar instruments". The objective of this standard is to set out improved principles for classification, recognition, measurement, presentation and disclosure of investments in Sukuk, shares and other similar instruments of investment made by Islamic Financial Institutions in line with Shari'ah principles. It defines the key types of instruments of Shari'ah compliant investments and defines the primary accounting treatments commensurate to the characteristics and business model of the institution under which the investments are made, managed and held. This standard shall be effective for the financial periods beginning on or after 1 January 2020 with early adoption permitted.

The Group is currently evaluating the impact of this standard.

#### *FAS 34 Financial reporting for Sukuk-holders*

AAOIFI has issued FAS 34 Financial reporting for Sukuk-holders in 2019. The objective of this standard is to establish the principles of accounting and financial reporting for assets and business underlying the Sukuk to ensure transparent and fair reporting for all stakeholders particularly Sukuk-holders. This standard shall be effective for the financial periods beginning on or after 1 January 2020 with early adoption permitted.

The Group is currently evaluating the impact of this standard.

#### *FAS 35 Risk Reserves*

AAOIFI has issued FAS 35 "Risk Reserves" in 2018. This standard along with FAS 30 'Impairment, Credit losses and onerous commitments' supersede the earlier FAS 11 "Provisions and reserves".

The objective of this standard is to establish the principles of accounting and financial reporting for risk reserves established to mitigate various risks faced by stakeholders, mainly the profit and loss taking investors, of Islamic financial institutions (IFIs/ the institutions). The standard defines the accounting principles for risk reserves in line with the best practices of financial reporting and risk management. The standard encourages maintaining adequate risk reserves to safeguarding the interest of profit and loss stakeholders particularly against various risks including credit, market, equity investment risks, as well as, the rate of return risk including displaces commercial risk. This standard shall be effective for the financial periods beginning on or after 1 January 2021 with early adoption permitted only if the Group early adopts FAS 30 "Impairment, Credit losses and onerous commitments".

The Group is currently evaluating the impact of this standard. The Group will adopt this new standard on the effective date.

### 5 FINANCIAL RISK MANAGEMENT

#### (a) Introduction and overview

Effective risk management is fundamental to the success of the Group, and is recognized as a key in the Group's overall approach to strategy management. The Group has a strong, disciplined risk culture where managing risk is a responsibility shared by all of the Group's employees. The Group has well established risk governance structure, with an active and engaged Board of Directors supported by an experienced executive management team.

The Group's risk management framework is predicated on the three-line-of defence model, within the model;

- The First Line of Defence (typically comprised of the businesslines and most corporate functions)
- The Second Line of Defence (typically comprised of control functions such as Group risk management, Group compliance, and Group finance)
- The Third Line of Defence (typically comprised of Internal audit)

The Group's main assets and liabilities are financial instruments. Financial assets include cash and balances with QCB, due from banks, investments securities, financing assets and other financial assets.

Financial liabilities include customers' current accounts, due to banks, and financial institutions and Sukuk financing. Financial instruments also include equity of unrestricted investment account holders and contingent liabilities and commitments included into off balance sheet items.

The Group is exposed to the following risks from its use of financial instruments;

- Credit risk
- Liquidity risk
- Market risk
- Operational risk; and
- Capital risk

## 5 FINANCIAL RISK MANAGEMENT (CONTINUED)

### (b) Credit risk

Credit risk is the risk of loss resulting from the failure of a borrower or a counterparty to meet its contractual obligations to the Group. It arises principally from the Group's financing assets, due from banks, and debt investment securities.

The Group seeks to manage its credit risk exposure through diversification of lending activities to avoid undue concentrations of risks with individuals or group of customers in specific locations or businesses. It also obtains collaterals, when appropriate. The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are implemented regarding the acceptability of types of collateral and valuation parameters.

#### (i) Credit risk measurement

The estimation of credit exposure for risk management purposes is complex and requires the use of models, as the exposure varies with changes in market conditions, expected cash flows and the passage of time. The assessment of credit risk of a portfolio of assets entails further estimations as to the likelihood of defaults occurring, of the associated loss ratios and of default correlations between counterparties. The Group measures the expected credit loss using Probability of Default (PD), Exposure at Default (EAD) and Loss Given Default (LGD). Refer to note 5 (bii) for more details.

#### *Credit risk grading (excluding balances with Ministry of Finance)*

The Group uses internal credit risk grading that reflect its assessment of the probability of default of individual counterparties. The Group uses internal rating models tailored to the various categories of counterparty. Borrower and finance specific information collected at the time of application (such as disposable income for personal banking exposures; and turnover and industry type for corporate banking exposures) is fed into this rating model. This is supplemented with external data such as credit bureau scoring information on individual borrowers. In addition, the models enable expert judgement from the Credit Risk Officer to be fed into the final internal credit rating for each exposure. This allows for considerations which may be captured as part of the other data inputs into the model.

The credit grades are calibrated such that the risk of default increases exponentially at each higher risk grade. For example, this means the PD for investment grades is lower than the PD for speculative grades

The following are additional consideration for each type of portfolio held by the Group:

#### *Personal banking*

After the date of initial recognition, for personal business, the payment behaviour of the borrower is monitored on a periodic basis.

#### *Corporate banking*

For wholesale business, the rating is determined at the borrower level. A relationship manager incorporates any updated or new information/credit assessments into the credit system on an ongoing basis. In addition, the relationship manager also update information about the creditworthiness of the borrower periodically from sources such as public financial statements. This determines the updated internal credit rating and PD.

#### *Treasury and investments*

For debt securities in the Treasury portfolio, external rating agency credit grades are used. These published credit grades are continuously monitored and updated. The PD's associated with each grade are determined based on realised default rates over the prior 12 months, as published by the rating agency.

The Group rating method comprises 10 rating levels. The master scale assigned each rating category a specified range of probabilities of default, which is stable over time. The rating methods are subject to annual validation and recalibration so that they reflect the latest projections in the light of all actually observed defaults.

# Qatar International Islamic Bank (Q.P.S.C)

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENT

For the year ended 31 December 2019

### 5 FINANCIAL RISK MANAGEMENT (CONTINUED)

#### (b) Credit risk (continued)

##### (i) Credit risk measurement (continued)

Below are the ratings for financial assets of the Bank as at 31 December 2019:

Rating grade	Financing assets QR'000	Debt type investments carried at amortised cost QR'000	Off balance sheet exposures subject to credit risk QR'000	Due from Banks QR'000
AAA to AA-	76,742	-	6,227	5,151,565
A+ to A-	6,244,753	996,291	1,367,463	2,719,771
BBB to BBB-	15,135,750	-	4,093,489	1,676,221
BB+ to B-	4,733,365	618,127	3,948,215	7,840
CCC+ to CCC-	2,036,009	-	2,628,515	-
Ca	183,358	-	90,458	-
C	433,828	-	9,001	-
D	383,174	-	19,961	-
Unrated	-	-	-	1,721
*Total	<u>29,226,979</u>	<u>1,614,418</u>	<u>12,163,329</u>	<u>9,557,118</u>

\* Excluding Exposure with Ministry of Finance & QCB

\* Without accrued profit

The above balances are gross before deducting the ECL.

##### (ii) Expected credit loss measurement

FAS30 replaces the 'incurred loss' model with an 'expected credit loss' model. The new impairment model also applies to certain financing commitments and financial guarantee contracts but not to equity investments. Under the ECL model, credit losses are recognised earlier than before.

The Group applies a three-stage approach to measuring expected credit losses (ECL) on financial assets carried at amortised cost. Assets migrate through the following three stages based on the change in credit quality since initial recognition.

#### Stage 1: 12 months ECL

Stage 1 includes financial assets on initial recognition and that do not have a significant increase in credit risk since initial recognition or that have low credit risk [i. Local sovereign that carry credit rating of (Aaa) or (Aa) and carry (zero) credit weight in accordance with capital adequacy instructions of the QCB, ii. Externally rated debt instruments of rating Aaa or Aa, iii. Other financial assets which the Group may classify as such after obtaining QCB's no objection at the reporting date]. For these assets, 12-month ECL are recognised and profit is calculated on the gross carrying amount of the asset (that is, without deduction for credit allowance). 12-month ECL is the expected credit losses that result from default events that are possible within 12 months after the reporting date. It is not the expected cash shortfalls over the 12-month period but the entire credit loss on an asset weighted by the probability that the loss will occur in the next 12-months.

#### Stage 2: Lifetime ECL - not credit impaired

Stage 2 includes financial assets that have had a significant increase in credit risk since initial recognition but that do not have objective evidence of impairment. For these assets, lifetime ECL are recognised, but profit is still calculated on the gross carrying amount of the asset. Lifetime ECL are the expected credit losses that result from all possible default events over the expected life of the financial instrument. Expected credit losses are the weighted average credit losses with the life-time probability of default ('PD') as the weight.

**5 FINANCIAL RISK MANAGEMENT (CONTINUED)**

**(b) Credit risk (continued)**

(ii) *Expected credit loss measurement(continued)*

**Stage 3: Non Performing - credit impaired**

Stage 3 includes financial assets that have objective evidence of impairment at the reporting date in accordance with the indicators specified in the QCB’s instructions. For these assets, lifetime ECL is recognised including the profit calculated on them, according to QCB’s instructions as disclosed in most recent annual financial statements. When transitioning financial assets from stage 2 to stage 3, the percentage of impairment made for such assets should not be less than the percentage of impairment made before transition.

A pervasive concept in measuring ECL is that it should consider forward-looking information. Section “*Forward-looking information incorporated in the ECL models*” includes an explanation of how the Group has incorporated this in its ECL models.

Purchased or originated credit-impaired financial assets are those financial assets that are credit impaired on initial recognition. Their ECL is always measured on a lifetime basis (Stage 3).

Further explanation is also provided of how the Group determines appropriate groupings when ECL is measured on a collective basis (refer to section “*grouping of instruments for losses measured on a collective basis*”).

The following table summarises the impairment requirements under FAS 30 (other than purchased or originated credit-impaired financial assets):

<b>Change in credit quality since initial recognition</b>		
<b>Stage 1</b>	<b>Stage 2</b>	<b>Stage 3</b>
(Initial recognition)	(Significant increase in credit risk since initial recognition)	(Credit-impaired assets)
12-month expected credit losses	Lifetime expected credit losses	Lifetime expected credit losses

The key judgements and assumptions adopted by the Group in addressing the requirements of the standard are discussed below:

• **Significant increase in credit risk (SICR)**

When determining whether the risk of default on a financial instrument has increased significantly since initial recognition, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes quantitative, qualitative, or backstop criteria and analysis, based on the Group’s historical experience and expert credit assessment and including forward-looking information.

**Qualitative criteria:**

For personal portfolios, if the borrower meets one or more of the following criteria:

- Direct debit cancellation
- Extension to the terms granted
- In short-term forbearance

For Corporate and Treasury portfolios, if the borrower is on the Watchlist and/or the instrument meets one or more of the following criteria:

- Significant adverse changes in business, financial and/or economic conditions in which the borrower operates
- Actual or expected forbearance or restructuring
- Actual or expected significant adverse change in operating results of the borrower
- Significant change in collateral value (secured facilities only) which is expected to increase risk of default
- Early signs of cash flow/liquidity problems such as delay in servicing of trade creditors/financing

## 5 FINANCIAL RISK MANAGEMENT (CONTINUED)

### (b) Credit risk (continued)

#### (ii) Expected credit loss measurement (continued)

##### • Significant increase in credit risk (SICR) (continued)

The assessment of SICR is performed on a quarterly basis at a portfolio level for all personal financing held by the Group. In relation to Corporate and Treasury financial instruments, where a Watchlist is used to monitor credit risk, this assessment is performed at the counterparty level and on a periodic basis. The criteria used to identify SICR are monitored and reviewed periodically for appropriateness by the independent Credit Risk team.

##### Backstop

A backstop can be applied when contractual payments are more than 30 days overdue with reasonable information to support the use of longer overdue periods that is not more than 60 days. The Group has not used the low credit risk exemption for any financial instruments in the year ended 31 December 2019.

##### • Definition of default and credit-impaired assets

The Group defines a financial instrument as in default, which is fully aligned with the definition of credit impaired, when it meets one or more of the following criteria:

##### *Quantitative criteria*

The borrower is more than 90 days past due on its contractual payments.

##### *Qualitative criteria*

The borrower meets unlikeliness to pay criteria, which indicates the borrower is in significant financial difficulty. These are instances where:

- The borrower is in long-term forbearance
- The borrower is insolvent
- The borrower is in breach of financial covenant(s)
- An active market for that financial asset has disappeared because of financial difficulties
- Concessions have been made by the lender relating to the borrower's financial difficulty
- It is becoming probable that the borrower will enter bankruptcy
- Financial assets are purchased or originated at a deep discount that reflects the incurred credit losses.

The criteria above have been applied to all financial instruments held by the Group and are consistent with the definition of default used for internal credit risk management purposes. The default definition has been applied consistently to model the Probability of Default (PD), Exposure at Default (EAD) and Loss given Default (LGD) throughout the Group's expected loss calculations.

An instrument is considered no longer be in default (i.e. to have cured) when it is no longer meets any of the default criteria for a consecutive period of twelve months. This period of twelve months has been determined based on an analysis which considers the likelihood of a financial instrument returning to default status after cure using different possible cure definitions.

##### • Measuring ECL – Explanation of inputs, assumptions and estimation techniques

The Expected Credit Loss (ECL) is measured on either a 12-month (12M) or Lifetime basis depending on whether a significant increase in credit risk has occurred since initial recognition or whether an asset is considered to be credit impaired. Expected credit losses are the discounted product of the Probability of Default (PD), Exposure at Default (EAD), and Loss Given Default (LGD), defined as follows:

- The PD represents the likelihood of a borrower defaulting on its financial obligation (as per "Definition of default and credit-impaired" above), either over the next 12 months (12M PD), or over the remaining lifetime (Lifetime PD) of the obligation.

**5 FINANCIAL RISK MANAGEMENT (CONTINUED)**

**(b) Credit risk (continued)**

*(ii) Expected credit loss measurement (continued)*

**• Measuring ECL – Explanation of inputs, assumptions and estimation techniques (continued)**

- EAD is based on the amounts the Group expects to be owed at the time of default, over the next 12 months (12M EAD) or over the remaining lifetime (Lifetime EAD). For example, for a revolving commitment, the Group includes the current drawn balance plus any further amount that is expected to be drawn up to the current contractual limit by the time of default, should it occur.
- Loss Given Default (LGD) represents the Group's expectation of the extent of loss on a defaulted exposure. LGD varies by type of counterparty, type and seniority of claim and availability of collateral or other credit support. LGD is expressed as a percentage loss per unit of exposure at the time of default (EAD).

The ECL is determined by projecting the PD, LGD and EAD for each future month and for each individual exposure or collective segment. These three components are multiplied together and adjusted for the likelihood of survival (i.e. the exposure has not prepaid or defaulted in an earlier month).

The Lifetime PD is developed by applying a maturity profile to the current 12M PD. The maturity profile looks at how defaults develop on a portfolio from the point of initial recognition throughout the lifetime of the financing. The maturity profile is based on historical observed data and is assumed to be the same across all assets within a portfolio and credit grade band. This is supported by historical analysis.

The 12-month and lifetime EADs are determined based on the expected payment profile, which varies by product type.

- For amortising products and bullet repayment financing, this is based on the contractual repayments owed by the borrower over a 12month or lifetime basis. This will also be adjusted for any expected overpayments made by a borrower.
- For revolving products, the exposure at default is predicted by taking current drawn balance and adding a "credit conversion factor" which allows for the expected drawdown of the remaining limit by the time of default. These assumptions vary by product type and current limit utilisation band, based on analysis of the Group's recent default data.

The 12-month and lifetime LGDs are determined based on the factors which impact the recoveries made post default. These vary by product type.

- For secured products, this is primarily based on collateral type and projected collateral values, historical discounts to market/book values due to forced sales, time to repossession and recovery costs observed.
- For unsecured products, LGD's are typically set at product level due to the limited differentiation in recoveries achieved across different borrowers. These LGD's are influenced by collection strategies, including contracted debt sales and price.

Forward-looking economic information is also included in determining the 12-month and lifetime PD, EAD and LGD. These assumptions vary by product type. Refer to section "*forward-looking information incorporated in the ECL models*" for an explanation of forward looking information and its inclusion in ECL calculations.

The assumptions underlying the ECL calculation – such as how the maturity profile of the PDs and how collateral values change etc. – are monitored and reviewed on a quarterly basis.

There have been no significant changes in estimation techniques or significant assumptions made during the reporting year.

The assessment of SICR and the calculation of ECL both incorporate forward-looking information. The Group has performed analysis and identified the key economic variables impacting credit risk and expected credit losses for each portfolio.

**5 FINANCIAL RISK MANAGEMENT (CONTINUED)**

**(b) Credit risk (continued)**

*(ii) Expected credit loss measurement (continued)*

• **Measuring ECL – Explanation of inputs, assumptions and estimation techniques (continued)**

These economic variables and their associated impact on the PD, EAD and LGD vary by financial instrument. Forecasts of these economic variables (the “base economic scenario”) are provided by the Group’s Economics team on a periodic basis and provide the best estimate view of the economy over the next five years.

In addition to the base economic scenario, the Group’s Economics team also provide other possible scenarios along with scenario weightings. The assessment of SICR is performed using the Lifetime PD under each of the base, and the other scenarios, multiplied by the associated scenario weighting, along with qualitative and backstop indicators (see section “*significant increase in credit risk (SICR)*”).

**Economic variable assumptions**

The Bank considers every changing macro-economic factors in order to reflect these factors into the forward looking PD, EAD and LGD, and this all will be based on local macro-economic indicators and Global indicators, as well the subjective approach toward those indicators. The macro-economic factors may also be reflected in the rating system considering the economic sectors and related economic impacts.

Macroeconomic factors are factors that are pertinent to a broad economy at the global and/or national level and in this case, will affect Qatar economy, subsequently, the banking system.

Macroeconomic factors could impact the obligors or payment behaviour to fulfil the obligations. QIIB utilizes management experience judgment in assessing the impact of these macroeconomic factors on different segments, as well the composition of those impacts toward the bank strategy.

More frequent reviews of economic variable assumptions will be conducted in the event of any significant changes in the regulatory requirements, economic conditions, business strategy of the Bank or any other changes in internal as well as external factors that may materially impact the Bank.

The Bank considers the following as most significant macroeconomic variables:

- **GDP (Gross Domestic Product):** Refers to the economy size. Forward looking GDP forecast will provide the predictive information regarding the expected size of the economy as well as indication of the economy expansion or contraction. GDP level can also be used as indicator to forecast the earnings and revenue for Corporate and SME’s customers.
- **Oil Price:** Considering that Qatar economy mainly rely on oil and gas sector, this indicator is a baseline to the Qatar economy.
- **Inflation:** Is the rate at which measure the general price level for goods and services and also reflect the purchasing power. This scenario may lead to an increase in the probability of financing as individuals experience a decrease in their purchasing power and vice versa.
- "The most significant period-end assumptions used for the ECL estimate as at 31 December 2019 were Oil Prices and inflation rates for Qatar (Oil price 2020: \$64.5/Barrel, 2021: \$61.5/ Barrel) and (inflation 2020: 2.23%, 2021: 2.13%)"
- In addition to the base economic scenario, the Group’s Economics team also provide other possible scenarios along with scenario weightings assigned to each macro-economic scenario ( 60% for base case scenario ,25% for medium case scenarios and 15% for high case scenarios)

**5 FINANCIAL RISK MANAGEMENT (CONTINUED)**

**(b) Credit risk (continued)**

(iii) *Credit risk exposure*

• **Maximum exposure to credit risk financial instruments subject to impairment**

Note 4c and 5bi represent a worst-case scenario of credit risk exposure to the Group, without taking account of any collateral held or other credit enhancements attached. For assets recorded on the consolidated statement of financial position, the exposures in note (4c) are based on net carrying amounts as reported on the consolidated statement of financial position excluding balances with MoF and QCB, while the exposures in note 5bi are before deducting the loss allowances.

The maximum exposure to credit risk relating to a financial guarantee is the maximum amount the Group could have to pay if the guarantee is called upon. The maximum exposure to credit risk relating to a financing commitment is the full amount of the commitment. In both cases, the maximum risk exposure is significantly greater than the amount recognised as a liability in the consolidated statement of financial position.

• **Collateral and other credit enhancements**

The Group employs a range of policies and practices to mitigate credit risk. The most common of these is accepting collateral for funds advanced. The Group has internal policies on the acceptability of specific classes of collateral or credit risk mitigation.

The Group prepares a valuation of the collateral obtained as part of the financing origination process. This assessment is reviewed regularly. The main types of collaterals obtained are as follows:

- Individual credit facilities, secured by salaries.
- For commercial and corporate lending, mortgages over real estate properties, inventory, cash and securities.
- For rental lending, mortgages over residential properties and securities.

Management monitors the market value of collaterals.

Longer-term finance and lending to corporate entities are generally secured; revolving individual credit facilities are generally secured by salaries .

The Group's policies regarding obtaining collateral have not significantly changed during the reporting year and there has been no significant change in the overall quality of the collateral held by the Group since the prior year.

The Group closely monitors collateral held for financial assets considered to be credit-impaired, as it becomes more likely that the Group will take possession of collateral to mitigate potential credit losses. Financial assets that are credit-impaired, after excluding deferred profit, and related collateral held in order to mitigate potential losses are shown below:

	Gross exposure QR'000	Impairment allowance QR'000	Carrying amount QR'000	Fair value of collateral held QR'000
<b>2019</b>

**5 FINANCIAL RISK MANAGEMENT (CONTINUED)**

**(b) Credit risk (continued)**

*(iii) Loss allowance*

The loss allowance recognised in the year is impacted by a variety of factors, as described below:

- Transfers between Stage 1 and Stages 2 or 3 due to financial instruments experiencing significant increases (or decreases) of credit risk or becoming credit-impaired in the year.
- Additional allowances for new financial instruments recognised during the year, as well as releases for financial instruments de-recognised in the year;
- Financial assets derecognised during the year and write-offs of allowances related to assets that were written off during the year.

The following tables explain the changes in the loss allowance between the beginning and the end of the annual period due to these factors:

	Stage 1 12-month ECL QR'000	Stage 2 Lifetime ECL QR'000	Stage 3 Impairment Losses QR'000	Total QR'000

##### (iv) Modification of financial assets

The Group sometimes modifies the terms of financing provided to customers due to commercial renegotiations, or for distressed financing, with a view to maximising recovery.

Such restructuring activities include extended payment term arrangements, and payment forgiveness. Restructuring policies and practices are based on indicators or criteria which, in the judgement of management, indicate that payment will most likely continue. These policies are kept under continuous review. Restructuring is most commonly applied to term financing assets.

The risk of default of such assets after modification is assessed at the reporting date and compared with the risk under the original terms at initial recognition, when the modification is not substantial and so does not result in derecognition of the original asset (refer to note 3 (h) above). The Group monitors the subsequent performance of modified assets. The Group may determine that the credit risk has significantly improved after restructuring, so that the assets are moved from Stage 3 or Stage 2 (Lifetime ECL) to Stage 1 (12-month ECL). This is only the case for assets which have performed in accordance with the new terms for 12 consecutive months or more .

##### (vi) Concentration of risks of financial assets with credit risk exposure

#### Geographical sectors

The following table breaks down the Group's credit exposure at their carrying amounts (without taking into account any collateral held or other credit enhancements attached), as categorised by geographical region and based on the country of domicile of its counterparties.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENT

For the year ended 31 December 2019

### 5 FINANCIAL RISK MANAGEMENT (CONTINUED)

#### (b) Credit risk (continued)

(vi) *Concentration of risks of financial assets with credit risk exposure (continued)*

#### Industry sectors

The following table breaks down the Group's credit exposure at carrying amounts before taking into account collateral held or other credit enhancements, as categorized by the industry sectors of the Group's counterparties:

	<b>Gross exposure 2019 QR'000</b>	Gross exposure 2018 QR'000
Government and related entities	<b>16,715,742</b>	8,665,641
Real estate	<b>8,131,014</b>	8,883,950
Personal	<b>10,588,262</b>	10,878,693
Contingent liabilities	<b>14,192,477</b>	11,758,751
Services	<b>12,152,921</b>	14,839,681
Commercial	<b>5,739,561</b>	3,499,851
Contracting	<b>676,846</b>	669,844
Industry	<b>431,961</b>	469,452
Other	<b>207,768</b>	118,091
	<b><u>68,836,552</u></b>	<b><u>59,783,954</u></b>

(x) *Write-off policy*

The Group writes off a financing asset or an investment in debt-type security balance, and any related allowances for impairment losses, when Group determines that the financing asset or security is uncollectible and after QCB approval is obtained.

This determination is made after considering information such as the occurrence of significant changes in the borrower's / issuer's financial position such that the borrower / issuer can no longer pay the obligation, or that proceeds from collateral will not be sufficient to pay back the entire exposure. For smaller balance standardised financing assets, write-off decisions generally are based on a product-specific past due status. The amount written off during the year was QR 527 thousands (2018: QR 521 thousands).

#### (c) Liquidity risk

Liquidity risk is the risk that the Group is unable to meet its obligations when they fall due as a result of e.g. customer deposits being withdrawn, cash requirements from contractual commitments, or other cash outflows, such as debt maturities or margin calls for risk management instruments etc. Such outflows would deplete available cash resources for client financing, trading activities and investments. In extreme circumstances, lack of liquidity could result in reductions in the consolidated statement of financial position and sales of assets, or potentially an inability to fulfil financing commitments. The risk that the Group will be unable to do so is inherent in all banking operations and can be affected by a range of institution-specific and market-wide events including, but not limited to, credit events, merger and acquisition activity, systemic shocks and natural disasters.

(i) *Management of liquidity risk*

The Group maintains a portfolio of high quality liquid assets, largely made up of government Sukuk of State of Qatar, short-term liquid trading investments, and inter-bank placements in addition to maintaining the statutory reserves with QCB. The Market Risk Department monitors the liquidity risk of the Bank on a daily basis through liquidity stress testing scenarios and report its results to the Risks Committee for their action if needed. All liquidity policies and procedures are subject to review and approved by Board of Directors.

The Group monitors its liquidity risk according to QCB's guidelines on Basel III through two key ratios, the Liquidity Coverage Ratio (LCR) to monitor the short term (30 days) resilience of the bank's liquidity and non-risk based Leverage Ratio to act as a credible supplementary measure to the risk-based capital requirements. The liquidity risk ratio as of 31 December 2019 is 98.68% (2018: 138.8%).

**5 FINANCIAL RISK MANAGEMENT (CONTINUED)**

**(b) Credit risk (continued)**

*(ii) Exposure to liquidity risk*

A key measure used by the Group for managing liquidity risk is the ratio of net liquid assets to deposits from customers, i.e total assets by maturities against total liabilities by maturities. For this purpose net liquid assets are considered as including cash and cash equivalents and investment grade debt-type securities for which there is an active and liquid market less any deposits from banks, sukuk issued, other borrowings and commitments maturing within the next month. A similar, but not identical, calculation is used to measure the Group's compliance with the liquidity limit established by QCB. The Market Risks Department monitors the liquidity risks of the Bank on a daily basis and run liquidity Stress Testing in order to make sure the Bank is in compliance with QCB requirements.

Details of the reported Group ratio of net liquid assets to deposits from customers at the reporting date and during the year were as follows:

	<b>2019</b>	2018
	%	%
At December 31		
Average for the year	<b>120</b>	116
Maximum for the year	<b>131</b>	139
Minimum for the year	<b>99</b>	100

**5 FINANCIAL RISK MANAGEMENT (CONTINUED)**

**(d) Market risks**

The Group takes on exposure to market risks, which is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risks arise from open positions in profit rate, currency and equity products, all of which are exposed to general and specific market movements and changes in the level of volatility of market rates or prices such as profit rates, credit spreads, foreign exchange rates and equity prices.

The market risks arising from trading and non-trading activities are concentrated in Group Treasury and monitored by the Group's Market Risk Department on a daily basis. Regular reports are submitted to the Risks Committee.

Non-trading portfolios primarily arise from the profit rate management of the Group's personal and corporate banking assets and liabilities. Non-trading portfolios also consist of foreign exchange and equity risks arising from the Group's debt-type and equity-type investments.

*(i) Management of market risks*

Overall authority for market risk is vested in ALCO/Investment Committee/ Limits Committee. Group Market Risk Department is responsible for the development of detailed market risk management policies (subject to review and approval by Risks Committee/Board Level) and for the day-to-day management of all market risks. The main objective of the Market Risk Management is identification, classification and management of market risk in a prudent way to ensure safeguarding interests of all shareholders. The Group views market risk management as a core competency and its purpose is not to neutralise market risks, but rather maximize risk/return tradeoffs within clearly defined limits. The existence of market risk requires the measurement of the magnitude of the exposure. This measure is an essential precursor to the management of the risk that takes the form of either reducing the exposure through hedging or maintaining sufficient capital to protect the Group from the risk of operational capacity impairment.

The principle tool used to measure and control market risk exposure within the Group's portfolios is Stress Testing Scenarios modelling.

*(ii) Exposure to profit rate risk – non-trading portfolios*

The principal risk to which non-trading portfolios are exposed is the risk of loss from fluctuations in the future cash flows or fair values of financial instruments because of a change in market profit rates. Profit rate risk is managed principally through monitoring profit rate gaps and by having pre-approved limits for repricing bands. ALCO is the monitoring body for compliance with these limits and is assisted by Group central Treasury in its day-to-day monitoring activities.

# Qatar International Islamic Bank (Q.P.S.C)

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENT

For the year ended 31 December 2019

### 5 FINANCIAL RISK MANAGEMENT (CONTINUED)

#### (d) Market risks (continued)

(ii) Exposure to profit rate risk – non-trading portfolios (continued)

##### Sensitivity analysis

The management of profit rate risk against profit rate gap limits is supplemented by monitoring the sensitivity of the Group's financial assets and liabilities to various standard and non - standard profit rate scenarios. Standard scenarios that are considered on a monthly basis include a 100 basis point (bp) parallel fall or rise in all yield curves worldwide. An analysis of the Group's sensitivity to an increase or decrease in market profit rates, assuming no asymmetrical movement in yield curves and a constant financial position, is as follows:

Sensitivity of net profit	100 bp parallel	
	Increase QR'000	Decrease QR'000
<b>2019</b>		
At 31 December	<b>48,705</b>	<b>(48,705)</b>
<b>2018</b>		
At 31 December	71,544	(71,544)

(iii) Exposure to other market risks – non-trading portfolios

##### Equity price risk

Equity price risk is the risk that the fair value of equities decreases as a result of changes in the level of equity indices and individual stocks. The non-trading equity price risk exposure arises from equity securities classified as fair value through income statement and fair value through equity.

The Group is exposed to equity price risk and the sensitivity analysis thereof is as follows:

Market Indices	Change in equity price %	Effect on equity		Effect on profit and loss	
		2019	2018	2019	2018
		QR'000	QR'000	QR'000	QR'000
Qatar Exchange	+/- 10	1,606	2,101	38	44
Bahrain Stock Exchange	+/- 10	505	514	-	-

The above analysis has been prepared on the assumption that all other variables such as profit rate, foreign exchange rate, etc are held constant and is based on historical correlation of the equity securities to the relevant index. Actual movement may be different from the one stated above.

##### Currency risk

Currency risk is the risk that the value of a financial instruments will fluctuate due to a change in foreign exchange rates. The Group takes an exposure to the effect of fluctuation is prevailing foreign currency exchange rates on its financial position. The Board of Directors have set maximum limits on the level of currency exposure, which are monitored daily.

The table below indicates the effect of a reasonably possible movement of the currency rate against the Qatar Riyal on the income statement, with all other variables held constant:

Currency	Change in currency rate equity price %	Effect on consolidated statement of income	
		2019 QR'000	2018 QR'000
Euro	+/- 10	2,360	199
Sterling Pounds	+/- 10	266	272
Others	+/- 10	19,456	84

# Qatar International Islamic Bank (Q.P.S.C)

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENT

For the year ended 31 December 2019

### 5 FINANCIAL RISK MANAGEMENT (CONTINUED)

#### (d) Market risks (continued)

(iii) *Exposure to other market risks – non-trading portfolios (continued)*

The Group manages its currency exposures within limits laid down by the Board of Directors. Limits are laid down for each currency individually and in total at the beginning of each year. The Qatari Riyal is pegged to the US Dollar. Although the Group is not exposed to any currency risk due to the peg, limits are set for US Dollar exposure. All other currency exposures are limited and the Group is not significantly exposed to the other currencies' exposures.

#### (e) Operational risks

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Group's involvement with financial instruments, including processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour.

The Group's objective is to manage operational risk so as to balance the avoidance of financial losses and damage to the Group's reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

The primary responsibility for the development and implementation of controls to address operational risk is assigned to senior management within each business unit. This responsibility is supported by the development of overall Group standards for the management of operational risk in the following areas:

- requirements for appropriate segregation of duties, including the independent authorisation of transactions;
- requirements for the reconciliation and monitoring of transactions;
- compliance with regulatory and other legal requirements;
- documentation of controls and procedures;
- requirements for the periodic assessment of operational risks faced, and the adequacy of controls and procedures to address the risks identified;
- requirements for the reporting of operational losses and proposed remedial action;
- development of contingency plans;
- training and professional development;
- ethical and business standards; and
- risk mitigation, including insurance where this is effective.

#### (f) Capital management

##### Regulatory capital

The Group's policy is to maintain a strong capital base so as to ensure investor, creditor and market confidence and to sustain future development of the business. The impact of the level of capital on shareholders' return is also recognized and the Group recognizes the need to maintain a balance between the higher returns that might be possible with greater gearing and the advantages and security afforded by a sound capital position.

The Group and its individually regulated operations have complied with all externally imposed capital requirements throughout the year.

The capital adequacy ratio of the Group is calculated in accordance with the Basel III Committee guidelines as adopted by the QCB.

The Group's regulatory capital position under Basel III and QCB regulations at 31 December was as follows:

	<b>2019</b>	2018
	<b>Basel III</b>	Basel III
Common Equity Tier 1 (CET 1) Capital	<u>5,137,305</u>	<u>4,945,104</u>
Tier 1 capital	<u>7,229,755</u>	<u>5,945,104</u>
Tier 2 capital	<u>311,021</u>	<u>261,141</u>
Total regulatory capital	<u>7,540,776</u>	<u>6,206,245</u>

# Qatar International Islamic Bank (Q.P.S.C)

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENT

For the year ended 31 December 2019

### 5 FINANCIAL RISK MANAGEMENT (CONTINUED)

#### (f) Capital management (continued)

##### Risk weighted assets

	2019 Basel III	2018 Basel III
Risk weighted assets for credit risk	37,561,886	34,712,598
Risk weighted assets for market risk	539,238	534,410
Risk weighted assets for operational risk	2,661,703	2,552,339
Total risk weighted assets	<u>40,762,826</u>	<u>37,799,347</u>
Regulatory capital	<u>7,540,776</u>	<u>6,206,245</u>
Common Equity tier 1 (CET 1) ratio	<u>12.60%</u>	<u>13.08%</u>
Risk weighted assets as a percentage of regulatory capital (capital ratio)	<u>18.50%</u>	<u>16.42%</u>

The capital adequacy ratio has been calculated as per Basel III guidelines with effect from 1<sup>st</sup> January 2014 in accordance with QCB regulations. The minimum capital adequacy requirements are as follows:

	CET 1 ratio without capital conservation buffer	CET 1 ratio including capital conservation buffer	Tier 1 capital ratio including capital conservation buffer	Tier 1 and 2 capital ratio including capital conservation buffer	Total capital including capital conservation buffer and domestic systematic important bank buffer	Total capital including conservation buffer, domestic systematic important bank buffer and ICAAP Pillar II capital charge
<b>2019</b>						
Actual	<u>12.60%</u>	<u>12.60%</u>	<u>17.74%</u>	<u>18.50%</u>	<u>18.50%</u>	<u>18.50%</u>
Minimum limit as per QCB	<u>6%</u>	<u>8.5%</u>	<u>10.5%</u>	<u>12.5%</u>	<u>12.5%</u>	<u>13.5%</u>
<b>2018</b>						
Actual	<u>13.08%</u>	<u>13.08%</u>	<u>15.73%</u>	<u>16.42%</u>	<u>16.42%</u>	<u>16.42%</u>
Minimum limit as per QCB	<u>6%</u>	<u>8.5%</u>	<u>10.5%</u>	<u>12.5%</u>	<u>12.5%</u>	<u>13.5%</u>

The Group will implement the new capital requirements for Profit Rate Risk on Banking Book (PRRBB) standard under Pillar II as of June 2020.

### 6 USE OF ESTIMATES AND JUDGMENTS

#### (a) Key sources of estimation uncertainty

The Group makes estimates and assumptions that affect the reported amounts of assets and liabilities. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

##### (i) Measurement of the expected credit loss allowance

The measurement of the expected credit loss allowance for financial assets measured at amortized cost is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behaviour (e.g. the likelihood of customers defaulting and the resulting losses). Explanation of the inputs, assumptions and estimation techniques used in measuring ECL is further detailed in note 5 (bii) section “*measuring ECL – explanation of inputs, assumptions and estimation techniques*”, which also sets out key sensitivities of the ECL to changes in these elements.

**6 USE OF ESTIMATES AND JUDGMENTS (continued)**

**(a) Key sources of estimation uncertainty (continued)**

A number of significant judgements are also required in applying the accounting requirements for measuring ECL, such as:

- Determining criteria for significant increase in credit risk;
- Choosing appropriate models and assumptions for the measurement of ECL;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product/market and the associated ECL; and
- Establishing groups of similar financial assets for the purposes of measuring ECL.

Detailed information about the judgements and estimates made by the Group in the above areas is set out in note 5 (bii).

*(ii) Determining fair values*

The determination of fair value for financial assets and liabilities for which there is no observable market price requires the use of valuation techniques as described in significant accounting policies. For financial instruments that trade infrequently and have little price transparency, fair value is less objective, and requires varying degrees of judgement depending on liquidity, concentration, uncertainty of market factors, pricing assumptions and other risks affecting the specific instrument.

Fair value is determined for each investment individually in accordance with the general valuation policies as set out below;

- (i) For quoted investments, the fair value is determined by reference to quoted market bid prices at close of business on the reporting date.
- (ii) For unquoted investments, the fair value is determined by reference to recent significant buy or sells transactions with third parties that are either completed or are in progress. Where no recent significant transactions have been completed or are in progress, fair value is determined by reference to the current market value of similar investments. For others, the fair value is based on the net present value of estimated future cash flows, or other relevant valuation method.
- (iii) For investments that have fixed or determinable cash flows, fair value is based on the net present value of estimated future cash flows determined by the Group using current profit rates for investments with similar terms and risk characteristics.
- (iv) Investments which cannot be measured to fair value using any of the above techniques are carried at cost less impairment.

**(b) Critical accounting judgements in applying the Group's accounting policies**

*(i) Valuation of financial instruments*

The Group's accounting policy on fair value measurements is discussed in the significant accounting policies section. The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Quoted market price (unadjusted) in an active market for an identical instrument.
- Level 2: Valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.
- Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on

# Qatar International Islamic Bank (Q.P.S.C)

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENT

For the year ended 31 December 2019

quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

### 6 USE OF ESTIMATES AND JUDGMENTS (CONTINUED)

#### (b) Critical accounting judgements in applying the Group's accounting policies (continued)

Fair values of financial assets and financial liabilities that are traded in active markets are based on quoted market prices or dealer price quotations. For all other financial instruments the Group determines fair values using valuation techniques.

Valuation techniques include net present value and discounted cash flow models, comparison to similar instruments for which market observable prices exist and other valuation models. Assumptions and inputs used in valuation techniques include risk-free and benchmark profit rates, credit spreads and other premia used in estimating discount rates, sukuk and equity prices, foreign currency exchange rates, equity and equity index prices and expected price volatilities and correlations. The objective of valuation techniques is to arrive at a fair value determination that reflects the price of the financial instrument at the reporting date, that would have been determined by market participants acting at arm's length.

#### (ii) Financial asset classification

The table below analyses investment securities measured at fair value at the end of the year, by the level in the fair value hierarchy into which the fair value measurement is categorised:

	Fair value measurement using			
	Total	Quoted prices in active markets (Level 1)	Significant Observable inputs (Level 2)	Significant unobservable inputs (Level 3)
2019	QR'000	QR'000	QR'000	QR'000
- Quoted equity-type investments classified as fair value through income statement	378	378	-	-
- Quoted equity-type investments classified as fair value through equity	21,107	21,107	-	-
- Unquoted equity-type investments classified as fair value through equity	41,073	-	-	41,073

	Fair value measurement using			
	Total	Quoted prices in active markets (Level 1)	Significant Observable inputs (Level 2)	Significant unobservable inputs (Level 3)
2018	QR'000	QR'000	QR'000	QR'000
- Quoted equity-type investments classified as fair value through income statement	437	437	-	-
- Quoted equity-type investments classified as fair value through equity	26,155	26,155	-	-
- Unquoted equity-type investments classified as fair value through equity	50,729	-	-	50,729

There have been no transfers between level 1 and level 2 during the years ended 31 December 2019 and 2018.

Details of the Group's classification of financial assets and liabilities are given in note 8.

**6 USE OF ESTIMATES AND JUDGMENTS (CONTINUED)**

**(b) Critical accounting judgements in applying the Group's accounting policies (continued)**

*(iii) Useful lives of fixed assets*

The Group's management determines the estimated useful life of fixed assets for calculating depreciation. This estimate is determined after considering the expected usage of the asset, physical wear and tear, technical or commercial obsolescence.

*(iv) Useful lives of intangible assets*

The Group's management determines the estimated useful life of its intangible assets for calculating amortisation. This estimate is determined after considering the expected economic benefits to be received from the use of intangible assets.

*(v) Impairment of fair value through equity investments*

The Group determines that fair value through equity investments are impaired when there has been a 'significant' or 'prolonged' decline in the fair value below its cost. This determination of what is 'significant' or 'prolonged' requires judgment and is assessed based on qualitative and quantitative factors, for each fair value through equity investment separately. In making a judgment of impairment for fair value through equity investments, the Group evaluates among other factors, evidence of deterioration in the financial health of the entity, impact of delay in execution, industry and sector performance, changes in technology and operational and financing cash flows or whether it becomes probable that that the investee will enter bankruptcy or other financial reorganization.

**7 OPERATING SEGMENTS**

The Group has three reportable segments, as described below, which are the Group's strategic divisions. The strategic divisions offer different products and services, and are managed separately based on the Group's management and internal reporting structure. For each of the strategic divisions, the Group Management Committee reviews internal management reports on monthly basis. The following summary describes the operations in each of the Group's reportable segments:

**Corporate Banking** Includes financing, deposits and other transactions and balances with corporate customers, government and semi government institutions and SME customers.

**Personal Banking** Includes financing, deposits and other transactions and balances with retail customers.

**Treasury & Investments** Undertakes the Group's funding and centralised risk management activities through borrowings, issue of Sukuk, use of risk management instruments for risk management purposes and investing in liquid assets such as short-term deposits and corporate and government Sukuk.

Investments activities include the Group's trading and corporate finance activities.

Performance is measured based on segment profit, assets and liabilities growth, as included in the internal management reports that are reviewed by the ALCO committee. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments.

# Qatar International Islamic Bank (Q.P.S.C)

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENT

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENT

At 31 December 2019

### 9 CASH AND BALANCES WITH QATAR CENTRAL BANK

	2019 QR'000	2018 QR'000
Cash on hand and in ATMs	586,892	508,743
Cash reserve with QCB (i)	1,547,791	1,509,922
Other balances with QCB	135,027	716,859
	<u>2,269,710</u>	<u>2,735,524</u>

(i) Cash reserve with QCB is not available for use in the Group's day to day operations.

### 10 DUE FROM BANKS

	2019 QR'000	2018 QR'000
Mudaraba placements	5,417,337	7,497,630
Commodity Murabaha receivable	3,998,069	5,123,013
Current accounts	141,713	183,905
Accrued profit	65,933	38,596
Allowance for expected credit losses of due from banks (stages 1 and 2)	(5,936)	(3,867)
	<u>9,617,116</u>	<u>12,839,277</u>

### 11 FINANCING ASSETS

#### (a) By type

	2019 QR'000	2018 QR'000
Murabaha and Musawama	31,162,634	20,894,507
Ijarah Muntahia Bittamleek	6,050,056	7,116,672
Istisn'a	417,006	680,647
Mudaraba	1,074,940	774,609
Musharaka	625	709
Others	244,121	243,706
Accrued profit	551,986	527,763
<b>Total financing assets</b>	<u>39,501,368</u>	<u>30,238,613</u>
Less: Deferred profit	(1,781,260)	(1,669,497)
Allowance for expected credit losses of financing assets (stages 1 and 2)	(264,968)	(218,846)
Allowance for credit impairment of financing assets (stage 3)	(405,894)	(330,929)
Suspended profit	(38,718)	(28,225)
<b>Net financing assets</b>	<u>37,010,528</u>	<u>27,991,116</u>

Total carrying amount of Istisn'a contracts under processing is QR 217 million (2018: QR 239 million).

During the year, the Bank had written off fully provided bad debts after meeting conditions stipulated in the instructions of QCB amounting to QR 527 thousand (2018: QR 521 thousand).

The total non-performing financing assets at 31 December 2019 amounted to QR 801 million, representing 2.03% of the gross financing assets (2018: QR 598 million, representing 1.98%)

#### 23 SHAREHOLDERS EQUITY

##### (a) Share capital

At 31 December	Number of shares (thousand)	
	2019	2018
Issued and fully paid*	<b>1,513,687</b>	151,369

\* Issued and fully paid capital of QR 1,513,687 thousands comprises 1,514 million shares with a nominal value of 1 Qatari Riyal each (2018: QR 1,513,687 thousands comprises 151.4 million shares with a nominal value of QR 10 each).

The Board of Directors of Qatar Financial Markets Authority ("QFMA") issued its resolution at its 4th meeting for the year 2018 held on 16th of December 2018, to reduce the nominal value of shares of listed companies in Qatar to be one (1) Qatari Riyal, so that each existing share will split into ten (10) shares.

Therefore, the Group held an Extraordinary General Meeting of Shareholders on 24th of March 2019 approving the share split with a ratio of 1:10 in accordance with the said resolution. Qatar Stock exchange enforced a stock split on 11th of June 2019 with a ratio of 1:10. As a result, the number of shares became 1,514 million shares with nominal value of one (1) Qatari Riyal each.

##### (b) Legal reserve

In accordance with QCB Law No. 13 of 2012 as amended, 10% of net profit for the year is required to be transferred to the reserve until the legal reserve equals 100% of the paid up share capital. This reserve is not available for distribution except in circumstances specified in Qatar Commercial Companies Law No. 11 of 2015 and after QCB approval. No appropriation was made as the legal reserve equals more than 100% of the paid up share capital.

##### (c) Risk reserve

In accordance with QCB regulations, the minimum requirement for risk reserve is 2.5% of the total private sector exposure granted by the Group inside and outside Qatar after the exclusion of the specific provisions and profit in suspense. The finance provided to / or secured by the Ministry of Finance – Qatar or finance against cash guarantees is excluded from the gross direct finance. The total amount transferred to the risk reserve during the year amounted to QR 46.5 million (2018: QR 1 million).

# Qatar International Islamic Bank (Q.P.S.C)

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENT

At 31 December 2019

### 23 SHAREHOLDERS EQUITY (CONTINUED)

#### (d) Fair value reserve

Fair value reserve represents unearned profits or losses at year end. The profit is not available for distribution unless realized and charged to the consolidated statement of income.

	2019 QR'000	2018 QR'000
<b>Investments carried as fair value through equity:</b>		
Balance at 1 January	14	1,643
Movement during the year	2,308	(1,643)
Share of investment account holders	(1,456)	14
As at 31 December	<u>866</u>	<u>14</u>

#### (e) Other reserves

Other reserves include the undistributed share of the associates' profit after deducting dividends received.

Movements in the undistributed share of associates profit are as follows:

	2019 QR'000	2018 QR'000
<i>Undistributed share of associates profit:</i>		
Balance at 1 January	79,947	82,352
Add: Undistributed profit of associates of the year	-	849
Less: Dividend received from associates	-	(3,254)
Less: Recognized profit of associate	(394)	-
	<u>79,553</u>	<u>79,947</u>

#### (f) Proposed cash dividends

The Board of Directors has proposed a cash dividend of 42.5% of paid up share capital amounting to QR 643 million (2018: 40 % of paid up share capital amounting to QR 605 million) which is subject to approval at the Annual General Meeting of the shareholders of the Bank.

### 24 SUKUK ELIGIBLE AS ADDITIONAL CAPITAL

#### (a) Sukuk eligible as additional capital issued prior to the year-ended 2019

During the year 2016, the Group issued perpetual sukuk eligible as additional capital for an amount of QR 1 billion. The sukuk is unsecured and the profit distributions are discretionary, non-cumulative, payable annually, with a fixed profit rate for the first five years which will be revised upon the completion of the initial five years' period. The Group has the right not to pay profit and the sukuk holders have no right to claim profit on the sukuk. The sukuk does not have a maturity date and has been classified as an equity. In prior years, sukuk distributions were accrued in the year which the distributions belong to. Consistent with the Group's accounting policy on dividend distributions that is disclosed in note (3.(q)), the management changed the recognition policy for sukuk distributions to be recognized as a deduction in equity in the period in which they are approved by the shareholders of the Bank.

#### (b) Sukuk eligible as additional capital issued during the year-ended 2019

In 2019, the Group issued additional perpetual, unsecured, subordinated sukuk eligible as additional tier 1 capital amounting to USD 300 million listed in London Stock Exchange. The payment of profit for these sukuk is non-cumulative, and are made at the discretion of QIIB. The Group has the right not to pay profit on these sukuk, and the sukuk holders will have no claim with respect to non-payment. The applicable profit rate have a reset date as per the terms of the agreement of the issued sukuk. The sukuk does not have a fixed maturity date. The Group classified the sukuk as equity.

At 31 December 2019

#### 30 OTHER EXPENSES

	2019 QR'000	2018 QR'000
Computer and ATMs expenses	29,136	30,775
Rent	23,654	26,784
Telephone, telex and post	17,314	15,916
Board of Directors remuneration	13,340	12,720
Advertising and promotion	7,982	6,827
Maintenance and cleaning expenses	4,065	3,967
Fees and subscriptions	7,189	6,179
Water and electricity	1,313	1,786
Security service expenses	1,423	1,589
Stationery and printing	1,237	1,261
Professional fees	17,609	14,833
Business travelling expenses	1,401	746
Insurance	1,416	1,199
Shari'a Committee remuneration	944	944
Hospitality expenses	722	1,677
Donations	-	100
Miscellaneous expenses	3,892	4,755
	<u>132,637</u>	<u>132,058</u>

#### 31 CONTINGENT LIABILITIES AND COMMITMENTS

	2019 QR'000	2018 QR'000
<b>Contingent liabilities</b>		
Unused financing facilities	7,596,798	7,064,850
Guarantees	6,010,876	4,235,267
Letters of credit	576,095	449,048
Others	8,707	9,585
	<u>14,192,476</u>	<u>11,758,750</u>

#### Unused financing facilities

Commitments to extend credit represent contractual commitments to make financing and revolving financing. The majority of these expire in the next year. Since commitments may expire without being drawn upon, the total contractual amounts do not necessarily represent future cash requirements.

#### Guarantees and Letters of Credit

Guarantees and letters of credit commit the Group to make payments on behalf of customers in case of a specific event. Guarantees and standby letters of credit carry the same credit risk as financing.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENT

At 31 December 2019

### 36 ZAKAH

Zakah is directly borne by the shareholders. The Group does not collect or pay Zakah on behalf of its shareholders in accordance with the Articles of Association.

### 37 SHARI'A SUPERVISORY BOARD

The Shari'a Supervisory Board of the Group consists of 3 scholars who are specialized in Shari'a principles and they ensure the Group's compliance with general Islamic principles and work in accordance with the issued Fatwas and guiding rules. The Board's review includes examining the evidence related to documents and procedures adopted by the Group in order to ensure that its activities are according to the principles of Islamic Shari'a.

### 38 SOCIAL AND SPORTS FUNDS APPROPRIATION

The Group discharges its social responsibilities through donations to charitable causes and organizations when profits are reported. The Group has created provisions during the year of 2019 of QR 23,176 which represents 2.5% (2018: QR 22,054 which represents 2.5%) of net profit as per Law No.13 for year 2008 and explanatory notes issued for year 2010.

### 39 COMPARATIVE FIGURES

The comparative figures presented for 31 December 2018 have been reclassified where necessary to preserve consistency with the 2019 figures. However, such reclassifications did not have any effect on the consolidated net profit or the total consolidated equity for the comparative year. The reclassification was made in line with QCB circular issued during the year, as a result of which, the bank has reclassified accrued profit from Other assets / Other liabilities to the respective assets and liabilities as follows:

	<b>Balance before re-classifications QR'000</b>	<b>Re-classifications QR'000</b>	<b>Balance after re-classifications QR'000</b>
<b>31 December 2018</b>			
Due from banks	12,800,681	38,596	12,839,277
Financing assets	27,463,353	527,763	27,991,116
